FOR IMMEDIATE RELEASE

Brookstone Builders, Inc. Completes U.S. Navy Project

MANCHESTER, NH – (March 23, 2022) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have completed a renovation project for the **United States Navy**.

The project involved converting open and warehouse space in multiple buildings at the Portsmouth Naval Shipyard into office space. The scope of work included select demolition, drywall, new doors and frames, flooring, and finishes.

Mark Brockelman was Brookstone Builders' Project Manager.

"Renovation projects such as this one that require working in and around occupied space have become somewhat of a specialty, and our crews have developed experience at following the necessary and enhanced safety, noise, and dust abatement procedures," said Brookstone Builder's President **Paula Scales**.

"We have always enjoyed working with the Naval Shipyard as well," Ms. Scales added. "Our business relationship has spanned many years and we appreciate their straightforward communication protocols and work processes."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
