**FOR IMMEDIATE RELEASE**

## Brookstone Builders, Inc. Completes NH Veterans Home Project

**MANCHESTER, NH** – (October 3, 2022) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have completed a renovation project at the **New Hampshire Veterans Home** in Tilton.

The project involved upgrading HVAC controls and the replacement of 142 heat pumps throughout the Winter Street facility, which is an intermediate, long term care residence that provides a broad range of medical and nursing care to veterans.

**Mark Brockelman** was Brookstone Builders' Project Manager.

"It was important to minimize the impact on residents and staff during this renovation, and the project aligned nicely with many of our specialty capabilities," said **Paula Scales**, Brookstone Builder's President. "Our crews are especially well-suited to the heightened safety, noise abatement, and scheduling protocols that are associated with working in and around occupied space."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
