

FOR IMMEDIATE RELEASE

Brookstone Builders, Inc. Awarded US Navy Shipyard Project

MANCHESTER, NH – (November 20, 2015) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have been selected to perform a unique replacement project by the **US Navy**.

The scope-of-work will involve the dismantling, removal and replacement of a spiral staircase that services the lowest level of a dry-dock pump house at the **Portsmouth Naval Shipyard**. The new staircase will be made of stainless steel, and will facilitate easier access for the crews that maintain the dewatering pumps, which are located approximately fifty-feet below ground level.

The Project will involve working in and around a highly secure occupied space with tight working area thus requiring special scheduling as well as heightened safety procedures.

Mark Gemmiti will serve as Brookstone Builders' Project Manager, and Brookstone Builders will be the sub-contractor on this project, with **CCI Solutions** of Augusta, Maine serving as the primary contractor.

"We appreciate our professional relationships with the Navy and CCI Solutions," said Brookstone Builder's President **Paula Scales**. "We are also pleased to have been awarded this contract as the dry dock pump house is a unique area, and our team is well-experienced at completing projects while the client's workforce maintains their normal schedule of operations."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
