

FOR IMMEDIATE RELEASE

BROOKSTONE BUILDERS, INC. COMPLETES VA RENOVATION PROJECT

MANCHESTER, NH – (February 17, 2014) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have completed a renovation and improvement project for the **Veterans Administration Hospital** in Manchester, New Hampshire.

The scope-of work involved the installation of a more energy-efficient, low-maintenance exterior siding and insulation, along with the renovation of interior offices, the staff kitchen and medical treatment areas within the urgent care unit of Manchester's Veteran's Administration Hospital, where the areas veterans receive emergency medical care.

To keep the urgent care facility fully-operational during construction, the project was completed in three separate phases, each incorporating the heightened safety, noise-control and dust-abatement protocols necessary to enable working in or around occupied space.

Brookstone Builders teamed with Veterans Development Corporation of Braintree, MA for this project as part of a collaborative effort.

Veterans Development Corporation, Inc. is a registered and certified *Service Disabled Veteran Owned Small Business (SDVOSB)* Corporation. Headquartered in Braintree Massachusetts, the company delivers general construction and design/build services.

Brookstone Builders, Inc is a *woman-owned business* founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
