FOR IMMEDIATE RELEASE

Brookstone Builders, Inc. Awarded Winchester Interconnect Renovation Project

MANCHESTER, NH – (June 24, 2021) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have been awarded a multi-phase renovation project by **Winchester Interconnect**, a global leader in the design and manufacture of connectors, cable, cable assemblies, and custom interconnect solutions.

The project will involve a series of interior renovations to various functional areas within Winchester Interconnect’s production facility on Lynnfield Street in Peabody, Massachusetts, with a primary objective of improving overall workflow and operational efficiency.

The initial scope of work will include select demolition, upgrades to the ventilation system, repairs and upgrades to existing floors and walls, and all related finishes. The business will remain fully functional throughout all phases of the project.

Mark Brockelman will serve as Brookstone Builders’ Project Manager.

“We are looking forward to working with Winchester Interconnect and to this multi-stage project,” said Brookstone Builder’s President **Paula Scales**. “Our crews are well-experienced with this type of renovation and with the heightened safety, noise and dust abatement protocols required when working in or around occupied space.”

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
