

## Summercrest Assisted Living Newport, NH

Located on a hill top in Newport, NH, Brookstone Builders constructed the Summercrest Assisted Care Facility in a style that is reminiscent of a New England inn, providing residents with a truly home-like environment.

Structurally, Summercrest is a two story wood-framed 28,000 square foot building. Within are thirty-six (36) one-bedroom suites along with studios and two-bedroom apartments. Each suite is complete with full bath, kitchenette and living area.

The facility is complemented by a commercial kitchen, common dining hall, exercise room, large living room with fireplace, four sunrooms, a laundry room and hair salon. The project included electrical and mechanical systems, site work and internal finishes. Summercrest is now a home to residents at varying stages of life and ability, offering independent living, assisted living and memory care.
