

**FOR IMMEDIATE RELEASE**

## Brookstone Builders, Inc. Now Providing Excavation Services

**MANCHESTER, NH** – (February 23, 2026) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they now offer residential and light commercial excavation services to customers in New Hampshire.

This new development came about as part of the company's effort to expand service offerings. They purchased a **CAT 304 Mini Excavator** which is ideal for performing a wide range of applications such as digging trenches for underground utilities or drainage piping and backfilling, preparing foundations for garages or additions, landscaping and leveling yards, creating backyard fishponds, digging large planting beds or holes for trees and removing unwanted soil, and the demolition of small structures.

"The mini excavator was an ideal choice for us," said **Karen Scales**, Brookstone Builder's President. "They're great in tight spaces such as backyards, between buildings, or anywhere larger equipment won't fit. We're excited about being able to offer these additional services to our existing customers and to new customers as well."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides design-build, commercial, and industrial construction solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects. For additional information please contact Ms. Karen Scales at (603) 641-9455 or visit [www.brookbuild.com](http://www.brookbuild.com).      ###
